

Nutri-Sea Liquid Fish™

**NATURAL
SOIL-LIFE
AND PLANT
GROWTH
PROMOTERS**

A natural high analysis, fish fertiliser containing amino acids, fatty acids, vitamins, macronutrients and the vast array of micronutrients found in anything that grows in the ocean.

Involves approximately 42% fish solids, principally derived from high-protein NZ deep water fish species. This fish fertiliser has superior natural nitrogen (6.6%) and trace element levels. 25 kg of fish frames are used to produce 1 L of this powerful concentrate.

BENEFITS

- Australian Certified Organic (ACO) Registered Farm Input 456AI.
- Exceptionally high, natural nitrogen – derived from cold-water, high-protein species.
- Highest percentage of fish solids available.
- This unique combination triggers growth and sustains the soil.
- Naturally balanced minerals, vitamins, oils, proteins, amino acids and trace elements.
- Promotes earthworms and micro-organisms.

PACKAGING:

1 L, 5 L, 20 L,
200 L, 1000 L
Product Code:
NS

Nutri-Sea Liquid Fish™

APPLICATION RATES

Foliar Spray:

Vegetables

1 L per 100 L water up to 5 L/ha equivalent
Apply weekly or as required

Orchards & Vineyards

1 L per 100 L water up to 7 L/ha equivalent
Apply every 2 – 4 weeks or as required

Ornamentals & Turf

1 L per 100 L water up to 5 L/ha equivalent
Apply every 2 – 4 weeks or as required

Broadacre Crops

1 – 3 L/ha in 60 – 100 L water, depending on canopy closure, apply as required

Pasture

1 – 3 L/ha in 60 – 100 L water, apply as required

Spot-Spraying

50 mL per 10 L water, apply as required

Fertigation:

Vegetables

10 – 30 L/ha
Apply weekly or as required

Orchards, Vineyards, Ornamentals & Turf

10 – 30 L/ha
Apply every 2 – 4 weeks or as required

Home Garden Application:

Dilute 3 capfuls per 9 L watering can and apply the diluted mix at a rate of 1 litre per square metre
Apply fortnightly or as required

STORAGE & HANDLING

- Store in a cool dry area out of direct sunlight. Do not decant into metal drums or containers as Nutri-Sea Liquid Fish™ can gradually cause corrosion. This product has been tested to store safely down to 5°C. Crystallisation or sedimentation may occur below 5°C. Do not pre-mix or store in diluted form.

Disclaimer: Any recommendations provided by Nutri-Tech Solutions Pty Ltd (NTS) or its Distributors are advice only. As no control can be exercised over storage, handling, mixing, application or use, or weather, plant or soil conditions before, during or after application (all of which may affect the performance of our program), no responsibility for, or liability for any failure in performance, losses, damages, or injuries (consequential or otherwise), arising from such storage, mixing, application, or use will be accepted under any circumstances whatsoever. NTS recommend you contact an Agronomist prior to product application. The Buyer assumes all responsibility for the use of any NTS products.

TYPICAL ANALYSIS W/W

Nitrogen (N) (as organic).....	6.61%
Phosphorus (P) (as organic).....	0.60%
Potassium (K) (as organic).....	1.10%
Sulfur (S).....	1.41%
Calcium (Ca).....	270 mg/L
Magnesium (Mg).....	495 mg/L
SG.....	1.1
pH.....	2.2 – 4.2
Conductivity.....	20 – 40 mS/cm
Appearance.....	Brown liquid

IMPORTANT

- Contains some larger particles. Screening is recommended prior to application through fine filters.
- Avoid spraying close to harvest if produce is susceptible to staining.
- Not compatible with very alkaline products such as potassium silicate and soluble humates.
- **Note:** This product is not designed to be used to modify the effect of an agricultural chemical product.
- **Note:** Product in 1000 L tanks may weigh over 1 tonne. Forklift with 2 tonne lifting capacity is recommended.

INSTRUCTIONS

Shake or stir well before use. Where higher water rates are required for good foliar coverage, do not exceed maximum product rate per hectare. Sensitive foliage or plants should be test sprayed prior to full scale application. Frequencies are a guideline only and can be adjusted according to farm practices and/or in conjunction with crop monitoring. Ensure suitable spray conditions (e.g. temperature, humidity, wind-speed), prior to foliar application. Compatibility and/or performance cannot be guaranteed when combined with other products. Jar test for compatibility and spray test on small area before wide-spread use.
