

Nutri-Life Tricho-Shield™

Beneficial fungi to improve the balance between desired and undesirable microorganisms on the leaf surface and in the soil.

Tricho-Shield™ is a talc-based formulation containing the beneficial fungal species *Trichoderma harzianum*, *Trichoderma lignorum* and *Trichoderma koningii* which promote plant and root growth.

BENEFITS

- Australian Certified Organic (ACO) Registered Farm Input 456AI.
- Root-zone balance is coupled with plant growth promotion associated with *Trichoderma* metabolites.
- Seed & seedling treatment creates a favourable growing environment with a variety of plant health benefits.
- Tricho-Shield™ can be applied to seeds, transplants, bulbs, cuttings, grafts and established crops.
- A powerful probiotic.
- No withholding period.

PACKAGING:

1 kg, 5 kg
Product Code: NLTS

**MICROBIAL
PRODUCTS**

Nutri-Life Tricho-Shield™

APPLICATION RATES

Foliar Application:

1 kg/ha or 5 grams per L of water for spot spraying
Apply as required

Soil Application:

Small crops

1 – 2 kg/ha
Apply with the first fertigation
Repeat in 4 weeks then as required

Tree crops

1 – 2 kg/ha
Apply in early Spring
Repeat as required

Seedling Treatment:

Dip seedlings in a solution of 5 grams per L of water
Apply just prior to planting

Seed Treatment:

Horticulture

5 grams per kg of seed
Ideally, apply just prior to planting

Broadacre

2 kg per tonne of seed
Ideally, apply just prior to planting

Cuttings:

10 g per L as a dipping solution
Apply just prior to planting

INSTRUCTIONS

- This product requires sieving when applied with sensitive spray equipment. Prior to application, mix Tricho-Shield™ with water to make a slurry. Stand for 1 hour, screen, then add to fertigation or spray tank.

COMPOSITION

Contains the species *Trichoderma harzianum*,
Trichoderma lignorum & *Trichoderma koningii*

STORAGE & HANDLING

- Immuno-compromised persons (e.g. those undergoing chemotherapy) should not handle or be exposed to microbial products. While handling, brewing and applying microbial products protective clothing, gloves and face masks should be worn. Contains live organisms. Avoid aerosols generated by aeration. Store in cool, dry place away from sunlight and below 30°C (preferably under refrigeration). Use as soon as possible after opening but if this cannot be achieved then refrigerate remainder immediately after use and use within 3 months. Contamination of contents may occur at any time after opening and NTS takes no responsibility for opened product not used immediately. DO NOT FREEZE.

IMPORTANT

- For best results, include Nutri-Tech Triple Ten™ with Nutri-Life Tricho-Shield™. The Triple Ten™ formulation includes all of the requirements to maximise microbial performance, including soluble phosphorus, iron, molybdenum and bio-stimulants including fulvic acid and kelp.
- Contains live organisms. Do not mix with fungicides/bactericides, toxic chemicals or soil fumigants. Sanitise spray tank before application.
- All microbial products should be added to the tank last after all other inputs have been diluted. Ideally, if foliar spraying, apply in the late afternoon. Do not exceed 60 psi.
- While handling and applying microbial products protective clothing, gloves and face masks should be worn. Wash hands after use.

Disclaimer: Any recommendations provided by Nutri-Tech Solutions Pty Ltd (NTS) or its Distributors are advice only. As no control can be exercised over storage, handling, mixing, application or use, or weather, plant or soil conditions before, during or after application (all of which may affect the performance of our program), no responsibility for, or liability for any failure in performance, losses, damages, or injuries (consequential or otherwise), arising from such storage, mixing, application, or use will be accepted under any circumstances whatsoever. NTS recommend you contact an Agronomist prior to product application. The Buyer assumes all responsibility for the use of any NTS products.
